PROFILE

Information Systems graduate (GPA 3.86/4.00) with a focus on data analysis and business visualization. Skilled in SQL, Excel, Power BI, Tableau, and Looker Studio to turn raw data into clear dashboards for decision-making. Experienced in building a Naive Bayes model for my thesis and developing Laravel and MySQL websites, from system analysis (functional and non-functional), diagrams, and database design to UI/UX in Figma. Eager to contribute and grow as a Data Analyst.

EDUCATION

Universitas Persada Indonesia Y.A.I 2022 - 2026
S1 Sistem Informasi | IPK: 3.86 / 4.00

- **Skripsi:** "Rancang Bangun Sistem Informasi Layanan Bimbingan Konseling dengan Fitur Deteksi Dini Mental Siswa pada SMPN 216 Jakarta."
- Built a web-based mental health screening system with Laravel, using the SDQ (Strengths and Difficulties Questionnaire) with role-based access for students and school counsellors (admins)
- Trained a 3-class Gaussian Naive Bayes classification model in Python with 94.82% accuracy, and integrated it through a Flask API to detect students' mental health conditions early.

ACADEMIC PROJECT

Business Performance Dashboards – ATM Repair Center Analytics December 2025
Rebuilt with real operational data

- Cleaned and standardized a real repair-center report (804 repair jobs, 2,659 part-consumption lines) using Excel, including fixing misaligned columns and inconsistent status values.
- Defined KPIs (total repairs, repair success rate, scrap rate, average repair time, repairs per day, weekend share, parts consumed) for the repair center.
- Built a 2-page Strategic and Tactical dashboard in Looker Studio with filters, scorecards, and trend charts.
- Wrote insights and recommendations for operations, such as Storage (HDD/DVD) causing 34 of 51 scrap jobs.

INTERNSHIP EXPERIENCE

Farhanas.id (Project E-Commerce) January 2026 - May 2026
Frontend Developer (Intern)

- Built the frontend of a real e-commerce website for the store farhanas.id using Laravel (Blade, Breeze, and Vite), along with HTML, CSS, and JavaScript.
- Developed the main pages found in a typical online store, such as the product catalog, product detail, and shopping cart.
- Turned the interface design into consistent, easy-to-use pages, and made the website fully responsive on mobile devices.

PT Developindo Rexcal Media (Dream Ratio) August 2025 - December 2025
Full-Stack Web Developer (Intern)

- Rebuilt the company website, then at the "coming soon" stage, into a complete company profile site that presents the company's services and offerings to prospective clients.
- Built with Laravel, MySQL, Blade, HTML, CSS and JavaScript, including database design, CRUD and an admin panel to update content.

WORK EXPERIENCE

Kamar Rasa Mamikos April 2022 - July 2022

Outlet Operator (part time)

- Managed about 10 orders per day from delivery partner channels (mostly GrabFood, plus GoFood, ShopeeFood, Traveloka Eats, and Tokopedia Meals), and processed them on time to improve customer satisfaction.
- Managed food and beverage inventory, including expired, damaged, and unfit-for-consumption items.
- Recorded and summarized daily sales accurately to support business analysis and decision-making.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Teknologi Informasi January 2024 - January 2025

Public Relations

- Built external communication with the university and other organizations to arrange joint activities.
- Prepared and sent invitation letters, permission requests, and activity reports in a professional way.
- Wrote and shared committee information with the public through WhatsApp, Instagram, and TikTok.
- Maintained good external relationships and supported effective information sharing.

SKILLS

Technical Skills:

- System Analysis & Design (Use Case, Activity Diagram, Class Diagram, ERD)
- Data Processing & Visualization
- Web Development
- UX Flow Design & Prototyping

Soft Skills:

- Communication
- Analytical Thinking
- Structured Problem-Solving
- Attention to Detail
- Teamwork
- Adaptability
- Initiative

Tools:

- Data & Analytics: Power BI, Looker Studio, SQL, Microsoft Excel, RapidMiner
- Design: Figma, Canva
- Development: Visual Studio Code, Laravel, PHP, HTML, CSS, JS, React, PhpMyAdmin,
- Office Productivity: Microsoft Word, PowerPoint, Excel,

Languages:

- Indonesian - Native
- English - Intermediate (TOEFL 643)

CERTIFICATE

- Zenith - Indonesian Vizz Idol Competition and Hands-on Tableau Fundamentals
- Microsoft - SQL Foundations (Coursera)
- Yonsei University - First Step Korean (Coursera)
- Central Course - TOEFL (Score 643)
